## Your advantages as a VP customer

Quality products in harmony with nature – you will benefit from working with us.

Flexible packaging from VP stands for reliable and trouble-free shipping since the '70s. As one of the leading manufacturers in Europe, we offer a wide range of high-quality and environmentally friendly packaging solutions.

### Quality

Our qualified and experienced staff keep the quality of our products and services at a constantly high level on the basis of DIN ISO 9001 and 14001. Our in-house laboratory is an important part of this process.

### Delivery capability

Our high storage capacity and state-of-the-art storage technology guarantee safe loading and a prompt delivery to you. We maintain a holistic system of interconnected processes whose optimisation leads to an ever greater reduction of processing, response and delivery times.

### Service

The service concept is firmly anchored in our thoughts and actions. On a daily basis, our sales representatives, internal sales team, purchasing department, pre-press department and production department provide a full range of services to make the order processing as easy as possible for you.

### Product portfolio

Every day, we produce a wide range of standard products as well as products printed with up to 8 colours, according to your requirements. Due to our extensive, energy-efficient and modern machinery and our storage capacity, we are able to respond flexibly to your needs.

### Sustainability

We take our social responsibility very seriously. We are committed to sustainable management and the protection of people and nature. For some of our products, we use paper from FSC®-certified and other controlled sources as well as water-soluble colours and coatings. All our sites have been 100% climate-neutral since 2012.

Look for our FSC®-certified products.

100 % climate-neutral Group

Feuchtwangen site, Germany

## aroFOL® classic

The classic amongst air bubble bags

Our classic amongst air bubble bags impresses with its flexibility and can be perfectly adapted to your requirements. aroFOL® classic Print offers you high-quality printing options and allows you to optimally match your mailing bags to the desired content.

### Product characteristics:

- Uncoated paper from FSC®-certified and other controlled sources in white and brown
- High-quality air bubble film as the inner layer
- Optimal filling solution due to sealing of air bubble film and paper at the opening
- From climate-neutral production
- Optimal tear resistance thanks to 1 cm continuously sealed edges
- Trifix closure (permanent seal, adhesive closure or holes for clip closure)
- Slanted flap
- With EAN for the end customer business
- Printing with water-based colours (Aquaprint®)
- Low net weight

### Product options:

- Special sizes
- Permanent seal, clip closure or adhesive closure
- Double fix closure
- Tear-off strip in the flap area
- Perforation in the flap area
- Straight or slanted flap
- Flap fully folded down
- Individual sales packaging with a label or an advertising insert
- Pouch / pocket on reverse for accompanying documents
- Coated paper
- Individual, fixed or serial barcode numbering
- 100% climate-neutral product

## The robust air bubble bag

Our aroFOL® air bubble bags are manufactured in a climate-neutral series production process using uncoated paper from responsible forestry and have proven their worth a million times over. See the flexible usage of our mailing bags for yourself, e.g. for sending your mailings or courier shipments. Discover our comprehensive aroFOL® product range, which has a wide variety of uses.

## aroFOL® poly

The indestructible air bubble bag

Tear-resistant, water-repellent and opaque

Optimal protection for your consignments of goods

With its outer layer made of opaque, tear-resistant polyethylene, our robust and tear-resistant air bubble bag is perfect for the extra secure shipping of your sensitive goods. The water-repellent and opaque version of our padded mailing bags, aroFOL® poly, can easily be written on with a ballpoint pen.

A variety of product options, including a pocket or foam film as an alternative inner layer, are possible on request.

## aroFOL® plus

The strong air bubble bag

aroFOL® plus with an extra strong outer layer

Optionally with a practical double fix closure

Our air bubble bag provides special protection through the use of extra strong mottled kraft liner as an outer layer. This enables this padded mailing bag to withstand even a high level of stress. Optionally also with a double fix closure and many other individual adaptation options.

8 standard sizes can be delivered from stock

Description	External dimensions in mm	Design	Article number
2/B	140x225+50	<input type="checkbox"/> mottled	2FVAF000202
3/C	170x225+50	<input type="checkbox"/> mottled	2FVAF000203

12	460x680+60	<input type="checkbox"/> mottled	2FVAF000212

## aroFOL® double

The air bubble bag with double protection.

In addition to the extra strong outer layer made of mottled kraft liner, this mailing bag has two layers of air bubble film on both sides as the inner layer. These mailing bags are manufactured in a climate-neutral series production process, specifically for shipping sensitive and heavy goods, and can be ordered at short notice in our standard sizes. We will also be happy to advise you about the variety of product options that are possible.

6 standard sizes can be delivered from stock

Description	External dimensions in mm	Design	Article number
3/C	170x225+50	<input type="checkbox"/> mottled	2FVAF000223
4/D	200x275+50	<input type="checkbox"/> mottled	2FVAF000224
5/E	240x275+50	<input type="checkbox"/> mottled	2FVAF000225

10/K	370x480+50	<input type="checkbox"/> mottled	2FVAF000230

aroFOL® double is particularly suitable for heavy goods

Extra strong thanks to a double air bubble inner layer on both sides

## aroFOL® foam

The alternative with protective foam padding

This version of our padded mailing bags is perfect for items that require only a small amount of padded protection. The flat foam film and the low net weight help you to keep the postage costs low. Our foam mailing bags are available from stock at short notice with an outer layer of white kraft paper in the usual, first-class VP Quality.

11 standard sizes can be delivered from stock

Description	External dimensions in mm	Design	Article number

10/K	370x480+50	<input type="checkbox"/> white	2FVAF000610

Particularly suitable for shipping flat items

Low net weight due to flat foam film

## aroFOL® win

The air bubble bag with a view

Proven aroFOL® protection with a viewing window

No laborious handwritten labelling

With aroFOL® win, the padded alternative with a viewing window, you will get the usual high level of protection provided by our proven air bubble bags – but without address labels or laborious handwritten labelling! This version also has the practical Trifix closure and our protective air bubble film as the inner layer.

6 standard versions can be delivered from stock

## aroFOL® media

The air bubble bag for your data media.

The optimal protection for data media

in two standard sizes

Our air bubble bag with strong cardboard as the outer layer provides the optimal protection when shipping your data media. Whether it's on a CD, a memory card or a USB stick, your data is guaranteed to arrive safely at its destination with this protection. In the standard product range, we offer you these bags from stock at short notice – produced in a climate-neutral process of course!

2 standard sizes can be delivered from stock

Description	External dimensions in mm	Design	Article number
3 1/2" / USB stick	150x120+40	<input type="checkbox"/> white	2FVAF000401
5 1/4" / CD	200x170+40	<input type="checkbox"/> white	2FVAF000402

## aroFOL® print

Personalised printed motifs professionally realised

A high-quality flexographic printing process is used to customise our air bubble bags for you and produce effective advertising material. On request, you can receive your protective transport packaging and gift wrapping as a 100 % climate-neutral product with your personal layout.

Product options:

- Environmentally friendly water-based colours (Aquaprint®)
- Double-sided printing with up to 8 colours
- Full page motif printing with the finest grid resolution
- Individual, fixed or serial barcode numbering (e.g. KAK, Data Matrix code etc.)
- "FSC®" logo printed
- Logo "produced in a climate-neutral process" or "climate-neutral product" printed

Can be printed with up to 8 colours

Personalised printed motifs professionally realised

## aroFOL® digital print

Makes an impression – customised air bubble bags in small quantities

Would you like to send your product with effective advertising and good protection, or as personalized mailing for a special occasion? We can just offer what you are looking for: we will customise your aroFOL® air bubble bag in a digital printing process (200 to 2,000 bags).

Printing on our aroFOL® standard bags in sizes 2 to 8

Product options:

- Printing on the front and the back
- Individual barcoding possible
- Printing of sequential numbering
- Creation of standard covering letters (e.g. personalised address field using Excel file)
- Detailed data check before printing
- Creation of a colour-binding print sample

aroFOL®

## aroFOL® bubble

The versatile air bubble film

### Small rolls

Our bubble wrap is produced in a climate-neutral process and is perfect for shipping, transporting and storing goods. Pack your goods protectively, securely and effectively with our air bubble film, which is made of eco-friendly PE and is available in practical dispenser boxes or as a small roll. Therefore this option is perfect as sales packaging.

#### Product characteristics:

- 2-layer film made of polyethylene
- 4 mm bubble height
- 10 mm bubble diameter
- Packaging either shrink-wrapped (with or without advertising insert or label) or in a practical dispenser box with tear-off perforations

#### Product options:

- Film strengths from 50 µ to 110 µ
- Roll width from 25 cm to 120 cm
- Roll length from 3 m to 20 m
- Climate-neutral product
- Bulk packed, with or without a label, in a box

aroFOL® bubble

## The convenient padded protection

Do your goods require special protection or special padding? You can see the advantages of our versatile air bubble film for yourself. Our bubble wrap, which is made of polyethylene, provides effective padding for sensitive and fragile goods and can be used as a filler. It is also resistant to heat and cold.

### Large rolls

We produce the air bubble film in a climate-neutral process on large rolls according to your requirements.

#### Product characteristics:

- 2-layer film made of polyethylene
- 4 mm bubble height
- 10 mm bubble diameter
- Bulk packed in a film sack with a label

#### Product options:

- Film strengths from 50 µ to 110 µ
- Roll width from 25 cm to 200 cm
- Roll length from 100 m to 300 m
- Climate-neutral product

docuFIX®

docuFIX®

## docuFIX® classic

### Attached in seconds

Our self-adhesive, very stable document envelopes optimally protect your delivery notes and invoices during shipping. Our classic amongst document envelopes impresses with its flexibility and can be perfectly adapted to your requirements.

#### Product characteristics:

- PE film transparent, anti-reflective and barcode readable
- Kraft paper bleached white
- Available in the versions unprinted and red/black printed as standard
- Environmentally friendly, solvent-free and odourless hot-melt adhesive
- Subpackaged with 250 envelopes in each dispenser box
- Bulk packed with 1,000 or 500 envelopes in each box

#### Product options:

- Special sizes
- Individual flap width
- Without a flap
- Reopening resealable closure "docuFIX® special"
- Special film strengths
- Slit in the paper
- Perforation in the flap region or at the bottom of the envelope
- Individual sales packaging with a label or an advertising insert
- Low-tack adhesive / easy removable
- 100% climate-neutral product

Many standard sizes and versions can be delivered from stock. You will find other standard designs on our website.

Also in a practical dispenser box

## The self-adhesive document envelope

Its perfect adhesion to different materials and its easy handling enables you to attach your documents quickly and securely to all shipping packaging. This means that your accompanying documents will arrive safely at their destination, protected from the weather. Our stock offers a comprehensive selection of different sizes and prints. We also produce custom-made products – perfectly tailored to your requirements.

You will find other designs on our website.

## Document envelopes basic

The environmentally friendly alternative

In a practical dispenser box

Protect your delivery documents inexpensively and securely

The basic version of our self-adhesive document envelopes is manufactured in a climate-neutral series production process. Due to the adapted combination of materials, it is a more affordable alternative to our docuFIX® classic. In spite of the thinner film, the delivery note envelope provides reliable protection for your shipping documents and can be stuck securely to a wide variety of materials.

Many standard sizes and versions can be delivered from stock. You will find other standard designs on our website.

## docuFIX® print

Professionally printed document envelopes

You can get your advertising off the ground with high-quality motif printing. Through climate-neutral production, the highly precise flexographic printing process enables you to customise your delivery note envelopes in an environmentally friendly way to provide effective advertising.

## docuCARE® classic

The tear-resistant film mailing bag

The film bag that is perfect for your consignment of goods or especially for courier shipments. This mailing bag is made of opaque polyethylene film with a permanent seal. It protects your important documents and consignments of goods and indicates manual attempts at tampering by means of deformed or destroyed film.

**Product characteristics:**

- Permanent hot-melt seal
- Closure with film cover or paper cover
- Opaque, recyclable LDPE film, black on the inside / white on the outside
- Unprinted
- Skirt side-weld or material-saving single flat side-weld

**Product options:**

- Recyclable LDPE film transparent
- HDPE film
- Film with recycled content
- Special sizes
- Double fix closure
- Double perforation as an opening aid
- Tear-off strips as receipts
- Sequential numbering and barcodes
- Handle
- Bottom gusset 60 (2 x 30) to 200 (2 x 100) mm
- Pocket for accompanying documents
- Micro-perforation
- Air holes
- 100% climate-neutral product
- Customised printing with water-based colours (Aquaprint®)

## The reliable film and security bag

Our mailing bags with a permanent seal and our safety bags with a tamper-proof closure optimally protect your important documents, goods and consignments of valuables from external influences and any attempts to open them. Attempts at tampering in transit are apparent. Discover our security bags, which have a wide variety of possible uses.

You will find other designs on our website.

## docuCARE® plus

The tamper-proof security bag

Do you want to transport money or valuables securely? The use of the blue security tape on our docuCARE® plus security bag makes attempts at tampering visible by triggering a hidden lettering. The wide range of stock produced in a climate-neutral process offers additional security features and is suitable for a wide variety of areas of application due to the versatile designs. Serial barcodes with Code 39 or GS1-128 (CashED).

### Product characteristics:

- Blue security closure 45 mm with hidden words "ILLEGAL ENTRY", multilingual ("ISEGA" approved)
- Recyclable PE film, transparent or opaque, black on the inside, white on the outside
- Durable skirt side-welds
- Microprinting along the side-welds
- Sequential numbering and barcodes
- Environmentally friendly water-based inks

### Product options:

- Special sizes
- Tear notch
- Tear-off strips as receipts
- Thermoreactive security tape
- Matt white fields that can be written on with ballpoint pens
- Personalisation of the security tape
- Handle
- Bottom gusset 60 (2 x 30) to 200 (2 x 100) mm
- Pocket for accompanying documents
- Micro-perforation
- Air holes
- Customised printing
- Customer-specific barcodes

Many standard sizes and versions can be delivered from stock. You will find other standard designs on our website.

## docuCARE® agrar – The safety bag for your retained samples

Our tamper-proof security bag is perfect for storing your retained samples and specimens. Due to the transparent film, your packaged product is immediately identifiable, and the printed label area allows you to record all the important data quickly and easily directly on the packaging.

You will find other standard designs on our website.

External dimensions in mm	Design	Article number
195x265+30 Receipt	transparent, 50 µm	2FSDP400720

For retained samples

## docuCARE® med - the leak-proof secondary packaging

These leak-proof sample bags are made of LDPE film and can be used in the medical and pharmaceutical sectors for transporting laboratory samples or cytostatic drugs. They are suitable for use as secondary packaging for shipping biological substances, Category B (UN 3373) in accordance with the ADR and Packing Instruction P650. In addition to our standard products, we are happy to supply you with the appropriate absorption inlay.

You will find other standard designs on our website.

245x350+50	transparent, 50 µm	2FVDF017363

Reliable protection from dust and moisture

flexiPAK

## flexiPAK classic

Block bottom bags made of 100 % paper

The practical self-adhesive closure with paper masking tape enables an ideal packaging process. Therefore, this paper mailer is in no way inferior to the film mailing bag. It is standardly made of high-quality, hard-wearing brown kraft paper with a glued flap and a wide self-adhesive closure. The serrated cut at the bag opening minimises the risk of injury from sharp cutting edges

### Product characteristics:

- High-quality, hard-wearing kraft paper
- Block bottom and side gussets
- Unprinted
- Glued flap with wide self-adhesive closure with paper masking tape
- Serrated cut at the opening
- Low net weight

### Product options:

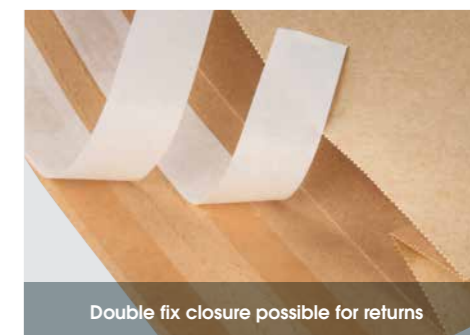

- Special sizes
- Block bottom and side gusset from 50 to 200 mm
- Flap from 50 to 120 mm
- Double fix closure for returns
- Fine serrated cut
- Double layer paper
- Other paper grades
- FSC®-certified paper, white
- PEFC™-certified paper, brown
- Individual, fixed or serial barcode numbering
- 100% climate-neutral product
- Continuous black print on flap

Perfect for consignments of goods

5 standard products can be delivered from stock

Double fix closure possible for returns

flexiPAK

## The environmentally friendly paper mailer

Our environmentally friendly block bottom bags made of 100% paper are perfect for shipping bulkier goods due to the side gussets and the block bottom and thus provide a lightweight alternative to cardboard. The wide self-adhesive closure ensures safe transportation.

## flexiPAK print

Design flexiPAK according to your own ideas

We will customise our block bottom bags for you in a high-quality flexographic printing process. On request, we will supply you with these environmentally friendly paper mailers as a 100 % climate-neutral product with a personalised logo.

### Product options:

- Environmentally friendly water-based colours (Aquaprint®)
- Double-sided printing with up to 8 colours
- Full page motif printing with the finest grid resolution
- Individual, fixed or serial barcode numbering
- FSC® or PEFC™ logo printed
- Logo "produced in a climate-neutral process" or "climate-neutral product" printed

## flexiPAK digital print

Customised paper mailers in small quantities

Customised printing possible

Personalised address field possible

Would you like to send your product with effective advertising, or to send a personalized mailing for a special occasion? Our paper mailers are just what you are looking for: we can also produce many of our standard formats in small quantities (200 to 2,000 bags) for you in a customised digital printing process. This will enable you to make an impression!

### Product options:

- Printing is possible on the front or the back
- Individual barcoding possible
- Printing of sequential numbering
- Creation of standard covering letters (e.g. personalised address field using Excel file)
- Detailed data check before printing
- Creation of a colour-binding print sample

## Padded bags

The padded mailing bag made of 100 % paper.

This robust mailing bag made of double layer kraft paper with a filling of flakes of recycled paper also protects your goods with reinforced corners and edges and a reinforced closure flap.

### 9 standard sizes can be delivered from stock
