

THE FIRST MONO-PACKAGING OF ITS KIND
EXCLUSIVE AND INNOVATIVE - THAT'S WHAT THE
NEW ENVELOPE STANDS FOR

aroFAIR® - PADDED AND PATENTED

Another addition to our product range - It's light, environmentally friendly and with optimal protection. This bag is filled with balls made from paper and starch and retains its form in any case during shipping. Also on this product we set the highest quality demands.

YOU CAN ALSO BENEFIT FROM THE FOLLOWING ADVANTAGES:

- Savings on carriage costs due to its low tare weight
- No need of additional filling material
- No separation of components needed - disposal directly through the paper waste
- Completely sustainable, as it's made from 100% brown FSC® recycling paper (FSC-C014176)
- Printed with water-based paints
- Due to placement of the international environmental logos for disposal, it's also suitable for the Italian and French market

DISCRIPTION	EXTERNAL	INTERNAL
3	170 × 225 + 50 mm	140 × 220 mm
4	200 × 275 + 50 mm	170 × 270 mm
